

14th Annual Blood and Marrow Transplant Nursing Forum

A Virtual and In Person Experience
Wednesday, September 7, 2022
7:55am-4:00pm

Join us for our annual forum that presents current issues and innovations affecting the care of bone and marrow transplant patients. Topics include:

- *Sickle Cell Disease and Gene Therapy*
- *Pharmacogenomics*
- *Acute Renal Injury*
- *Transfusion Reactions and Blood Type/ABO Incompatibility*
- *Evolution of Immunotherapy*
- *Therapies in the BMT population*
- *Patient and Family Experience – Life After Transplant*

Learning Outcomes:

At the conclusion of this activity, participants will be able to:

- Discuss clinical management and care strategies related to new bone marrow therapies.
- Describe clinical management of bone marrow transplant complications.
- Examine current role in the patient and family experience and its effect on patient outcomes.
