Diabetes Management *Mini Program for* School Nurses

Thursday, August 10, 2017

12:45 – 5:00 p.m.

Presented by
Cincinnati Children's
Diabetes Center

PURPOSE

- School nurses will understand and perform current diabetes care for students in the school setting.
- School nurses will ensure student's diabetes is properly and safely managed so they can participate fully in academic and school related activities.

AUDIENCE

RN or LPN school nurses in the Tristate area.

LEARNER OUTCOMES

1. Provide practical tips for the management of the student with diabetes.
2. Discuss the impact of psychosocial issues related to the management of a child with diabetes.
3. Discuss the basic components of insulin pump therapy for diabetes management at school.
4. Discuss the nutritional management of the student with diabetes and the determination of bolus calculations.
5. Discuss the importance of monitoring blood glucose and ketones at school and considerations for the school nurse.
6. Describe key components of proper administration of insulin via an insulin pen and glucagon via an emergency kit.

Cincinnati Children's
