Cincinnati Children's
Common to Complex - Project ECHO:
Seizures & Epilepsy

Seizures & Epilepsy Cohort begins July 19, 2018

Content is designed for practices in underserved areas with limited access to pediatric neurology

Register Today at:

https://cchmc.cloud-cme.com/C2CEpilepsy

Common to Complex: Project ECHO Cohort on Seizures & Epilepsy provides opportunities to gain skills:

- Assessing Seizures Effectively
- Facilitating Care Coordination
- Family Education and Support
- Medication Management
- Other Treatments: Beyond Anti-Seizure Medications
- Complexity - Comorbid Conditions
- Psychiatric Disorders & Learning Problems that Commonly Occur with Pediatric Epilepsy
- Transitioning to Adult Care

When:
- Every third Thursday of the month
- Beginning July 19, 2018 at 5:00 pm
- 9 sessions

Featured Faculty:

Ravindra Arya, MD, DM

Dr. Arya is a pediatric epileptologist involved in the care of children with epilepsy, particularly drug-resistant epilepsy. His clinic offers a comprehensive, multidisciplinary, approach to the evaluation and management of children with epilepsy.
