

Call for Nominations Due: November 6, 2019
Acute Care Research Leadership & Innovations Awards
Acute Care Research Council (ACRC)

The **Acute Care Research Leadership & Innovations Award** program has been established to honor leadership, innovation, and engagement in acute care research that advances the mission of the Acute Care Research Council. **Acute Care Research (ACR) is research related to a time-sensitive condition, associated with a visit to an emergency department or unscheduled admission, or identification of a new or worsening condition – characterized by sudden onset requiring immediate care (includes surveys, observational, interventional).**

ACRC's mission is to generate and execute world-class research initiatives through empowering our stakeholders, improving efficiency of the research process, training our next generation clinical and translational researcher, and developing acute care research standards of care – all to advance patient outcomes in the challenging and fast-paced acute care setting. Read more about the Acute Care Research Council at cctst.uc.edu/acrc.

Nominator (*person submitting a nominee*) **instructions:** Nominations must be submitted via [REDCap](#) survey. Each *nominator* may submit nominees for multiple categories –and- submit multiple nominees for a single category. Self-nominations accepted. Limit is 1 recommendation letter (*not required*). More than one award may be given in a category.

Deadline: Submission deadline is **November 6, 2019**. Winners and nominators will be notified the week of **November 18th**.

Winners will receive their awards and be recognized at the
Acute Care Research Symposium awards ceremony on
Monday, November 25, 2019, 11:45 am
Cincinnati Children's Hospital, Sabin Auditorium.

Award Categories:

1. **Acute Care Research 'Innovation' Award:** This award recognizes a *research staff individual* who has demonstrated innovation through novel intervention(s) and/or outcome(s) in ACR.
2. **Acute Care Research 'Partner' Award:** This award honors a *patient services staff individual (non-CRP)* who enthusiastically partners with acute care research teams to advance the success of ACR.
3. **Acute Care Research 'CRP Champion' Award:** This award recognizes a *Clinical Research Professional* who demonstrates commitment, passion and innovation in the application and advancement of ACR.
4. **Acute Care Research 'Student' Award:** This award recognizes an *undergraduate student, graduate student, resident, or fellow* who demonstrates commitment, passion and innovation in the application and advancement of ACR.
5. **Acute Care Research 'Excellent Investigator' Award:** This award recognizes a *principal investigator* who demonstrates excellence in commitment and innovation in the application and advancement of ACR.
