

Summit 2021 Introductions

Preeclampsia Management and Outcomes

Kristin H. Coppage, MD is a Maternal Fetal Medicine Specialist with TriState Maternal Fetal Medicine Associates. She is also the System Chief, TriHealth Women's Services, and President Elect, Medical Executive Committee, Good Samaritan Hospital. Dr. Coppage earned her medical degree from the University of Kentucky College of Medicine in 1998. She completed her residency in Obstetrics and Gynecology at Good Samaritan Hospital in 2002 and then completed a fellowship in Maternal-Fetal Medicine at the University of Cincinnati in 2005. Dr. Coppage is a fellow of the American College of Obstetricians and Gynecologists, a member of the Society of Maternal-Fetal Medicine and the American Medical Association. Dr. Coppage is board certified in Maternal-Fetal Medicine.

Michele L. Lamping RN, BSN, MBA, C-EFM, NE-BC, is the Women's Clinical Quality Improvement Officer for TriHealth where she was instrumental in achieving Perinatal Care Certification through The Joint Commission at Bethesda North and Good Samaritan. She has also been involved in several quality initiatives such as creating a Depression Toolkit for providers and team members and Decreasing Opioid Use Among Postpartum Women using the Pain Pack in which she was able to present several poster and podium presentations at conferences as well as publish on the topic. She has been a staff educator and manager for Mother Baby and Labor and Delivery throughout her 35 years with TriHealth.

Michele earned her Bachelor of Science in Nursing from Kent State University and holds a Master's in Business Administration from Xavier University.

Reena Oza-Frank, PhD, MS-MPH, RD is the Data and Surveillance Administrator for the Bureau of Maternal, Child, and Family Health for the Ohio Department of Health (ODH). Her main responsibilities include planning, directing, organizing, and managing statewide surveillance and epidemiology programs for the Title V Maternal and Child Health and other Programs within the Bureau. This includes overseeing the Ohio Pregnancy-Associated Mortality Review (PAMR) program. Prior to coming to ODH, Reena was a Principal Investigator at the Research Institute at Nationwide Children's Hospital and Research Assistant Professor at The Ohio State University where her research focused on prevention of prematurity, breastfeeding high-risk infants, and improving interconception health. Reena earned a PhD in Nutrition and Health Sciences, with an Epidemiology focus, from Emory University. She also

holds a dual Master's degree in Public Health Nutrition and Community Health Education from the University of Tennessee, Knoxville, and a bachelor's degree in Nutrition from the Ohio State University.

Neera K. Goyal, MD MSc is a primary care pediatrician at Nemours Children's Health and serves as the medical director of the newborn nursery at Thomas Jefferson University hospital. She has a specific interest in pregnancy and the newborn period, with extensive research experience in perinatal risk assessment, linked longitudinal datasets, and pediatric outcome measures. Her previous research included K12 funding from the University of Cincinnati, as well as an R40 from Maternal Child Health Bureau to study patterns of well child care and emergency department use during the first year of life. Dr. Goyal was recently awarded an R18 from AHRQ to implement and evaluate a group well child care intervention for mother-infant dyads affected by opioid use disorder.
