

Cincinnati Children's Interprofessional Continuing Education Program – Vision and Mission

Vision: Cincinnati Children's will be the leader in Continuing Education for child health care professionals and interprofessional teams

Mission: Cincinnati Children's Continuing Education program promotes life-long learning and continuous improvement in child health by:

- engaging child health care professionals
- providing innovative and impactful education centered on patients, families, and communities
- improving knowledge, clinical skills and attitudes contributing to improved health outcomes

Expected results: Cincinnati Children's IPCE program is committed to providing education that advances the knowledge and clinical skill of all participants and lead to improved patient, community, and healthcare team outcomes.
